## Life and family story DVDs

Not cheap...but a fabulous investment. Talk to us and we'll work out a budget to suit you. Think about an excellent wedding DVD – from around \$3000 and upwards for a good one. What's your life story worth to future generations?

## First consultation...FREE

Whatever your needs, we'll need some information from you to get started. Contact us to organise your first free consultation. We'll have a look at your requirements and give you a no-obligation estimate of fees and charges... just tell us as much as you can at that first meeting. We'll need to know:

- what you would like to find out, and
- briefly, what you already know about your family.

## About TimeTrackers

**TimeTrackers** exists to help people like you trace your past and tell your story.

We're a family business based near Fremantle and we've helped thousands of people throughout Western Australia. We also help clients from all over Australia, the UK, USA and Canada.

We do lots more than we've been able to include in this little pamphlet: house histories, reports, books, web-sites, and we even research, write and perform songs about stories from the past. Give us a call or check our web-site if you'd like more information.

## How to contact us

Contact Lesley or Mike at **TimeTrackers** in Palmyra to arrange an obligation-free discussion about your needs.

Phone	(08) 9339 8078
Mobile	0407 669 376

Website: [www.timetrackers.com.au](http://www.timetrackers.com.au)

## Learn about family history

### Come to one of our friendly Workshops:

- **Beginners:** how to get started; the basics of genealogy and family history (includes notes)
- **Internet:** how to use the internet for research (includes notes with lots of websites)
- **DNA** (see our separate brochure for DNA workshops)

Workshops are held at our home in Palmyra, timed to suit you and are usually one-to-one tuition. We can also tailor a specific two-hour coaching session for you based on your needs and experience.

### Talks and courses

We also give talks at FHWA (WAGS), libraries and other venues. We run courses and workshops for beginners and more experienced practitioners through UWA, local councils and other venues. Check with us to see what's coming up.

## Publish your story

Once you've done your research, you'll want to share it with others. We can help you with all aspects of publication. Talk to us about:

- **Writing a book.** We can write, edit, illustrate, design, lay out and produce final .pdf files to go direct to a printer for the print run. Or we can create the book as an e-book. And printing a book is not nearly as expensive as it used to be!
- **Illustrated charts and folios.** We can design and print large charts (including photos), as well as colourful A3 or A4 magazine-style lay-outs which can include text, charts and photos.
- **Producing a video.** We can create a powerful documentary video for you...see later in the brochure.

## We'll research for you

We specialise in tracing British and Australian ancestors, and we can access many records online via various subscription websites. After discussing your needs (and checking what you already know), we will search for your ancestors by accessing records such as:

- Birth, death and marriage indexes and certificates
- UK census records
- electoral rolls and directories
- parish register transcripts and images
- shipping and passenger lists
- newspapers
- other relevant data

While we can't guarantee what we'll find, we've got a good track record. We'll keep you fully informed and work within a budget to keep your costs under control.

We charge fees for all the time we spend on your research on an hourly basis (whether we find anything or not). Expenses (such as film hire, certificates, lookup charges, copying etc) are additional. We'll need some information from you to get started, and then we'll give you a no-obligation estimate of fees and charges...just tell us as much as you can beforehand.

## Family Reunions

If you come from a large family and you're thinking of organising a family reunion, call us for:

- large colour-coded display charts and coordinated name tags, so that all the visitors can work out where they fit in to the family.
- A3 folders of all the charts as a souvenir of the day.

Naturally we'll need some family information to work with. Talk to us about your plans and see how we can help you make this an even more memorable event.

## Tell your story on video

### Make a documentary of your family story

We all have a story to tell. **TimeTrackers** can turn your story into a compelling historical documentary. While you talk, photos, maps and other documents will appear... it becomes your story with pictures.

We work with you to budget, plan, film and edit a well-crafted story, not just a home video. We want to give you something that you'll be proud of, something to pass on to future generations.

- **The Plan:** We plan the overall story with you, develop outlines and prompts, and work out a schedule and budget.
  - **The Film:** We shoot the interviews, location shots and cutaways. We also source photos, maps, documents and any other video during this phase.
  - **The Edit:** We edit in two stages: first is the 'rough cut'. We review that with you, then do the 'final cut', where we trim the shots, add titles, text, voice-overs, transitions, music, etc.
  - **The output:** Finally, we create a master digital file which is then transferred to DVD, YouTube, or other media. And because the final output is digital, you can get additional high-quality copies run off in whatever format you like.
- So your family will be able to watch you telling your story in your own words for generations to come. Don't leave it till it's too late!
