Life and family story videos

Not cheap...but a fabulous investment. Talk to us and we'll work out a budget to suit you. Think about an excellent wedding video – from around \$3000 and upwards for a good one. What's your life story worth to future generations?

First consultation...FREE

Whatever your needs, we'll need some information from you to get started. Contact us to organise your **first free consultation**. We'll have a look at your requirements and give you a no-obligation estimate of fees and charges... just tell us as much as you can at that first meeting. We'll need to know:

- what you would like to find out, and
- briefly, what you already know about your family.

About TimeTrackers

TimeTrackers exists to help people like you trace your past and tell your story.

We're a family business based near Fremantle and we've helped thousands of people throughout Western Australia. We also help clients from all over Australia, the UK, USA and Canada.

We do lots more than we've been able to include in this little pamphlet: house histories, reports, books, web-sites, and we even research, write and perform songs about stories from the past. Give us a call or check our web-site if you'd like more information.

How to contact us

Contact Lesley or Mike at **TimeTrackers** in Palmyra to arrange an obligation-free discussion about your needs.

Phone	(08) 9339 8078
Mobile	0407 669 376

Learn about family history

Come to one of our friendly Workshops:

- **Beginners:** how to get started; the basics of genealogy and family history (includes notes)
- **Internet:** how to use specific sites on the internet for research (includes notes with lots of websites)
- **DNA** (see our separate brochure for DNA workshops)

Workshops are held at our home in Palmyra, timed to suit you and are usually one-to-one tuition. We can also tailor a specific two-hour coaching session for you based on your needs and experience.

Talks and courses

We also give occasional talks at FHWA (WAGS), libraries and other venues. We run courses and workshops for beginners and more experienced practitioners through UWA, local councils and other venues. Check with us to see what's coming up.

We'll research for you

We specialise in tracing British, Irish and Australian ancestors, and we can access many records online via various subscription websites. After discussing your needs (and checking what you already know), we will search for your ancestors by accessing records such as:

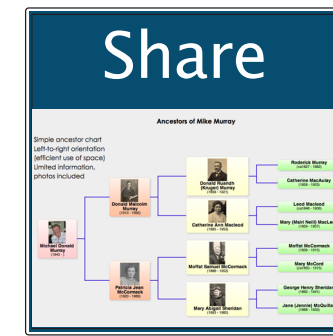

- Birth, death and marriage indexes and certificates
- UK census records
- electoral rolls and directories
- parish register transcripts and images
- shipping and passenger lists
- newspapers
- other relevant data

While we can't guarantee what we'll find, we've got a good track record. We'll keep you fully informed and work within a budget to keep your costs under control.

Although we specialise in British, Irish and Australian family history, we have been successful in tracing ancestors in other countries. Success depends on the availability of online records, or whether one of our agents can access records locally.

After the initial consultation we charge fees for all the time we spend on your project on an hourly basis (whether we find anything or not). Expenses (such as film hire, certificates, lookup charges, copying etc) are additional.

We'll need some information from you to get started, and then we'll give you a no-obligation estimate of fees and charges...just tell us as much as you can beforehand.

Share your story

Once you've done your research, you'll want to share it with others. We can help you with all aspects of publication.

Come and have a look at some of the ways we've helped clients share their stories. Talk to us about:

- **Illustrated charts and folios.** We can design and print large charts (including photos), as well as colourful A3 or A4 magazine-style lay-outs which can include text, charts and photos.
- **Writing a book.** We can edit, illustrate, design, lay out and produce final files to go direct to a printer for the print run. Or we can create the book as an e-book. And printing a book is not nearly as expensive as it used to be!
- **Producing a video.** We can create a documentary video for you...talk to us about what's possible. Videos are one of the most powerful ways to tell your story or your family's history.
